06 November 2009 – Workshop, Tallinn / Rakvere

# Suggestions of financing schemes for EE measures

- **More suitable loan system for building measures:**
  - **Special *EE loan programme* (e.g. "the more efficient the better the conditions")**
  - ***Revolving funds* fed from subsidies and budget from capital market:**
    - **Use and combine different capital sources**
    - **Dedicated to special demands**
    - **Working on several levels (local and national)**
    - ***Sustainable use of subsidies***

# Suggestions of financing schemes for EE measures

- **ESCO -> contracting models:**
  - *energy supply contracting and energy performance contracting*
  - *Suitable especially for municipal buildings, but on smaller levels as well*
  - *Running costs and risk up to the supplier*
- **Combination of ESCO measures and subsidies**

# Suggestions of financing schemes for EE measures

- *Beside EU funds or other support programs CO<sub>2</sub>-certificates as source of capital:*
  - *Use benefits for support of RES, EER or urban development*
- *Special support of RES*
  - *e.g. german EEG system*
