

Baltic Sea Region
Programme 2007-2013

Part-financed by the European Union
(European Regional Development Fund
and European Neighbourhood and
Partnership Instrument)

First Thematic Partner Workshop

Objectives and Activities PP4

Thomas Knorr-Siedow
UrbanPlus

16 June 2009 – Kick-Off-Conference, Potsdam

STATUS QUO

- *Status: Existing policies and initiatives*
 - *Energy policy and climate protection strategy in the federal state of Brandenburg*
 - *Integrated urban development approach → Master Plan Urban Regeneration*
 - *Financing strategies → revolving funds for urban development measures*
 - *Running pilot projects concerning energy saving and climate protection → ExWoSt, Energiedreieck Spreewald, Lübbenaubücke ...*
- *Challenge/Problems:*
 - *Combining EER-strategies within integrated urban development concepts on a wider scale*
- *Involvement:*
 - *MIR pursues and qualifies an integrated urban development policy*
 - *MIR supports a closer alignment of energetic aspects with subsidies policy*

Project within Urb.Energy – Content (1)

- *Comprehensive evaluation of completed and running projects concerning energy saving and climate protection in several model towns in Brandenburg*
- *Thematic issues:*
 - *Integrated urban development (WP3)*
 - *Energy efficient rehabilitation (WP4)*
 - *Financing instruments (WP5)*
- *Main Focus: prefabricated housing stock and referring public social infrastructure*

Project within Urb.Energy – Content (2)

- *Object of study:*
 - *City and urban quarter level:*
 - *BraNEK*
 - *Guben energy concept*
 - *Building / measures*
 - *ExWoSt-projects (Prenzlau/housing and Vetschau/infrastructure)*
 - *Schwarzheide*
 - *Lübbenaubücke*
 - *Energiedreieck Spreewald*

Project within Urb.Energy – Results

- *Outputs:*
 - *Analysis on realised integrated urban development concepts in Brandenburg*
 - *Strategy for energy efficiency in urban development in Brandenburg*
- *Intention:*
 - *To reflect and further develop the concepts and measures so far applied in Brandenburg as*
 - *input for the running projects and several model towns in Brandenburg and*
 - *thematic input for the further development of the political strategy “Energy efficient urban development” of the federal state Brandenburg*

Activities in WP3

- *Analysis on realised integrated urban development concepts in Brandenburg (report 1)*
- *Development of a strategy for energy efficiency in urban development in Brandenburg (report 2)*
- *Compilation of important results and core messages of the integrated urban development concepts in Brandenburg*

Activities in WP4

- *Analysis on realised integrated urban development concepts in Brandenburg*
- *Development of a strategy for energy efficiency in urban development in Brandenburg*
- *Publication of the results of EER in Brandenburg via a brochure*
 - *Focus: buildings and referring public social infrastructure*

Activities in WP5

- *Analysis on realised integrated urban development concepts in Brandenburg*
- *Development of a strategy for energy efficiency in urban development in Brandenburg*
 - *Focus: innovative financial instruments*
- *Interrelation of WP4 and WP5: describing and discussing financing schemes for EER of buildings and supply infrastructure*
